

Kaynic
CONSTRUCTION LTD.

Industrial Construction & Maintenance Solutions Built For You

No project is too big or small. We apply the same expertise and attention to detail to every job, providing custom solutions that meet your needs from start to finish.

OUR STORY & EVOLUTION

What started 15 years ago as a vision to provide independent industrial support in the North Peace region has grown into a multi-sector powerhouse. Originally built to keep a tight-knit team of talented tradespeople together, Kaynic now competes with mid-to-large scale contractors while maintaining the personalized service and agility of a boutique firm.

WHY CHOOSE KAYNIC?

We eliminate the red tape and overhead of large contractors through an agile, lean structure that prioritizes speed and innovation.

- **Integrated Capabilities:** In-house welding, fabrication and pipefitting, carpentry, millwright services, and a dedicated crane fleet.
- **Quality Control:** Stringent QC programs ensure reliability without relying on external contractors.
- **Expert Workforce:** A multi-certified team combining decades of industry experience with next-generation innovation.
- **Safety First:** Supported by comprehensive safety policies and advanced construction hardware/software.

OUR CORE VALUES

Dependable

We deliver reliable, high-quality results that you can count on, no matter the project.

Agile

Our team adapts quickly, ensuring efficient, effective solutions at every stage.

Responsible

We prioritize integrity and transparency for our clients, partners, and team.

COMMUNITY

Community is family. At Kaynic, we support where we live and work through sponsorships, volunteering, and local initiatives. We are honored to help our community thrive by being members and contributing to:

- Grande Prairie Chamber of Commerce
- Grande Prairie Construction Association
- Bandaged Paws
- Nitehawk Year-Round Adventure Park
- STARS
- Big Brothers Big Sisters of Grande Prairie and Area
- Game Country Archers
- Various Local Sports Teams and Players

INDIGENOUS ENGAGEMENT

Kaynic is dedicated to building trust-based partnerships through open communication and collaboration. We work closely with Indigenous communities and leaders to create opportunities, support local growth, and ensure a lasting positive impact in the regions we serve.

Industrial Construction & Maintenance

Kaynic delivers skilled expertise and workforce to keep operations running safely, efficiently, and on time.

Civil Works & Concrete

Civil works are the foundation of every project, providing the essential infrastructure for facilities and equipment. Kaynic has extensive experience delivering the following:

- **Site Preparation** – clearing land, grading, excavation, and soil stabilization
- **Earthworks** – digging, trenching, backfilling, and compaction
- **Underground Utilities** – installation of water, sewer, and conduit systems
- **Drainage and Water Management** – culverts, ditches, and stormwater systems
- **Concrete Work** – equipment foundations, slabs, footings, pads, and structural concrete
- **Roads and Access Routes** – construction and improvement of site roads and laydown areas
- **Structural Foundations** – foundations for buildings, tanks, conveyors, and heavy equipment

Our expertise also includes heavy infrastructure support for forestry and mining operations, including:

- Crusher foundations
- Conveyor supports
- Tank pads and containment berms
- Mill or processing equipment foundations
- Structural steel anchor foundations

Shutdowns, Maintenance Days & Emergency Call Outs

Kaynic delivers rapid, efficient shutdown services for planned or emergency outages, ensuring a safe return to operations with minimal downtime. We specialize in:

- **Planned Shutdowns** – large-scale maintenance and upgrade projects involving workforces of 100+ personnel
- **Emergency Shutdowns** – 24/7 rapid response for unplanned outages and critical situations
- **Troubleshooting** – inspection services, and debottlenecking to identify and resolve operational issues
- **Maintenance Days** – routine cleaning, preventative maintenance, and system optimization
- **Full Multi-Trade Support** – including millwrights, ironworkers, welders, carpenters, pipefitters, crane operators, and skilled labourers

Capital Projects

Kaynic delivers turnkey projects with safety, precision, and on-time results. Our capabilities include:

- **New Construction** – development of new plants and expansion of existing facilities
- **Installation of New Equipment** – conveyors, tanks, and processing equipment
- **Major Infrastructure Upgrades** – installation and enhancement of equipment foundations and structural systems

Oil and Gas Services

Kaynic's fully licensed piping division specializes in the construction, repair, and modification of pressure piping systems and pressure vessels for the oil and gas industry, ensuring safety, precision, and reliability across all projects.

Piping Fabrication

Kaynic holds ABSA certification for the construction, repair, and alteration of pressure piping systems. Our expertise includes the following:

- **ASME B31.1 Power Piping**
- **ASME B31.3 Process Piping**

We are also certified for the repair and alteration of pressure vessels, including:

- **ASME Section VIII-1 Pressure Vessels**

Plant Maintenance & Shutdowns

Kaynic is here to ensure your operations stay on track. Our services include:

- **Pipefitting Crew Trucks** – Fully equipped for on-site pipefitting tasks.
- **Mobile Welding Rigs** – On-site welding for flexibility and efficiency.
- **Picker Truck and Crane Services** – Providing lifting solutions to streamline your operations.
- **3D Scanning** – Cutting-edge scanning for precise measurements and accurate installations.

We work closely with you to minimize downtime and ensure your plant's continued performance and safety.

Module & Skid Fabrication

Kaynic's fabrication shop is CWB certified and fully equipped with the latest tools to handle your complex needs, including:

- **Beam Profiler** – Accurately processing all structural profiles with a 400 AMP plasma cutter.
- **CNC Plasma Table** – Delivers precise cutting for various plate materials.
- **Press Brake** – For press bending of multiple custom profiles on sheet material.
- **Shear** – Provides clean cuts for metal plates.
- **Hydraulic Pinch Roller** – For forming and shaping pipes or rolled profiles out of plate
- **Roller** – Handles angle iron, C-channel, flat bar, and HSS steel.

Our shop is designed to deliver top-quality modular solutions and skids that meet your exact specifications.

Agricultural

Kaynic supports agricultural operations with reliable maintenance and upgrades to keep facilities running efficiently year-round.

In-Load/Out-Load Conveyance Systems

We design, install, and maintain high-efficiency systems that include:

- Belts, Drag Conveyors, Chains, Distributors
- Spouting, Support Towers, Bucket Elevators
- Scale Systems

These systems are essential for smooth grain handling, improving the flow and efficiency of your operation.

Maintenance / Preventative Maintenance

We provide routine and preventative maintenance for:

- Storage Bins, Bearings, Motors, Belts, Chains

Ensuring that your equipment stays in top condition and avoids unexpected breakdowns, we offer reliable maintenance to extend the lifespan of your systems.

Inspection Services

We ensure your systems are functioning optimally and compliant with industry standards, minimizing risks and costly failures.

Grain Storage

We specialize in maintaining and upgrading grain storage facilities, ensuring safe, long-term storage solutions for your harvests.

Drying Systems

Our team offers expert services for grain drying systems, ensuring they operate efficiently to prevent spoilage and maintain quality.

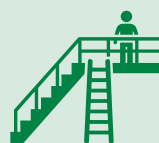

Troughing, Slip Joints, and Transitions

We handle troughing, slip joints, and transitions to ensure smooth material handling, optimizing your systems for better performance.

HD Lids with Auger Loading Capability

We offer custom HD lids that integrate seamlessly with auger loading systems, enhancing the speed and safety of your operations.

Stairs, Ladders, Catwalks, and Handrails

We build and install stairways, ladders, catwalks, and handrails, providing safe access for workers while meeting industry standards.

Fabrication

Kaynic delivers reliable in-house fabrication that reduces delays, controls costs, and keeps projects moving.

Custom Fabrication

- Aluminum and stainless steel welding and repairs
- Tractor-trailer repairs
- Press brake – up to 3/8" thickness with a 12 ft. bed
- Shear – up to 1/4" mild and stainless steel with a 12 ft. bed
- Hydraulic pinch roller – 3/8" capacity with a 4 ft. bed
- CNC plasma cutting table – 4 ft. x 8 ft.

Structural Steel – CWB Div 2 Certified

- Platforms, handrails, walkways, and stairs
- Modules, skids, pipe racks, and structural supports
- Beam profiling using Prodevco PCR41 equipment

Piping Fabrication- ASME B31.1, B31.3

- Carbon and stainless steel pipe spools
- Welded fittings and flanges
- Skid-mounted piping assemblies
- Pressure testing

Pickers, Cranes & Trucking

Kaynic provides safe, reliable lifting and transport to keep your project moving on time.

Mobile Cranes

- **70 ton** – Heavy-duty lifting for large-scale projects
- **50 ton** – Versatile lifting for mid-sized jobs
- **45 ton** – Reliable lifting for smaller or tight-access sites

Picker Trucks

- 12 ton knuckle picker
- 2 ton pipefitting crew trucks

Heavy Haul Trucking

- 40-ton winch tractors
- Various trailers – highboy, lowboy, trombone, jeep
- Equipment and material hauling
- Pilot truck services

Hot Shot Services

- F550 c/w gooseneck trailer
- F350 c/w bumper pull trailer

Safety and Quality

“The only constant in life is change”

Kaynic operates in a fast-paced, ever-changing environment where services, locations, and teams constantly evolve. To keep up, its safety and quality programs are designed to be adaptable, ensuring resilience and consistently high standards. Kaynic believes safety and quality are ongoing processes, not fixed outcomes.

Leaders and supervisors are trained to anticipate, monitor, and respond to complex, high-risk situations with confidence. Continuous learning and improvement are central to this approach.

Key priorities include transparent communication to reduce risk, ongoing adaptation to meet new challenges, and meeting or exceeding industry and regulatory standards while striving for continuous improvement.

➤ **Verified Safety Compliance**

Fully accredited by major industry auditors (ACSA COR, ISNetworld, Avetta) with COR safety certification valid through 2027.

➤ **Technical & Regulatory Expertise**

Registered with ABSA and Technical Safety BC, maintaining strict adherence to CSA and ASME welding and inspection standards.

➤ **Comprehensive Workforce Training**

A highly qualified team trained in essential field protocols, including H2S Alive, Confined Space, and Supervisor leadership programs.

Careers

If you take pride in your work and want to be part of a team that values skill, reliability, and hard work, Kaynic is the place for you.

What We Offer

- Competitive wages
- Comprehensive benefits program
- Mentorship and apprenticeship opportunities
- Opportunities for both shop and field work
- A strong, team-oriented and family-focused culture

Work in the trades

- Carpenters
- Crane Operators
- Ironworkers
- Millwrights
- Pipefitters
- Welders
- Labourers
